## 1. Introduction

This is a tool for Communication, which shall help you to collect the data from the ground level offices at any point of time. Moreover, such datasets readily available at your demand on click a button. An innovative data storage and management technology has inbuilt provision for periodical updating, creation of information / data as per requisite Performa/Format. It shall be very useful for Top & Middle management, Corporate Planning Department, Project Monitoring Department and Regional Offices etc.

Hence, availability of information, right data in quickest possible time saves considerable time of top management as well as facilitates in faster and right decision. The report formats will be designed and it would be mapped to the respective subordinate users in advance. Report recurrence will be configured in a Daily/Weekly/monthly /quarterly/yearly manner. System will automatically send sms & email reminder to the respective offices for submitting the report on the scheduled time. Upon submission of data from ground, you will be finding the consolidated report on regular time interval.

This web based system will bring in an electronic environment and will connect all your subordinate office through this e-report intranet network. Followed by that, user id and passwords will be given to all the sub ordinate offices under your administrative control. In case you want mobile based reporting, then mobile number also has to be registered.

The report formats will be designed and it would be mapped to the respective subordinate users in advance. Report recurrence will be configured in a Daily/Weekly/monthly /quarterly/yearly manner. System will automatically send sms & email reminder to the respective offices for submitting the report on the scheduled time. Upon submission of data from ground, you will be finding the consolidated report on regular time interval.

This will help you having your reports compiled automatically without doing much follow ups & compilation exercise. You can also see the reporting status of your ground offices.
